

TENNIS BALLS GET AROUND!

The tennis balls in the photo were picked up by a Clean Mill Valley volunteer in Mill Valley, Ca. These were just a fraction of the balls going into the water. Countless others float out into the Bay with the outgoing tide.

Sea Turtles don't play tennis! (it's so hard to hold the rackets with flippers) Please make sure to collect the balls after your dogs play with them! Let's keep our oceans tennis ball free!
